**Detention/ Jail Intro**

Glen Hodgson has over 36 years of professional experience that has focused on justice architecture. He has a broad base of experience in design, project management and coordination of technically complex justice projects. He has provided master planning and programming of state and local facilities in Illinois, North Dakota and Puerto Rico including the master planning of the North Dakota Correctional System and the facility assessments of the Illinois and Puerto Rico Adult and Community Correctional Center systems.

As the former manager of the Capital Programs unit of the Illinois Department of Corrections, he has worked closely with the Institution Staff in development of criteria for evaluation and establishment of standards and practices for tracking and managing the capital facilities. Glen has represented the owner with the planning, design and construction of 33 new adult and juvenile correctional facilities. He created a facility information database for the Illinois Department of Corrections (18 million square feet of facilities) and produced standardized design for various levels of correctional facilities.

**Juvenile Intro**

Glen Hodgson also has over 36 years of professional experience that has focused on juvenile justice architecture. He has a broad base of experience in juvenile justice design, project management and coordination of juvenile justice projects. He has provided master planning and

programming of juvenile facilities in Illinois, North Dakota and Puerto Rico including the master planning of the Illinois Juvenile System and the facility assessments of the Illinois and North Dakota Juvenile and Adult systems.

While manager of the Capital Programs unit of the Illinois Department of Corrections, he has worked closely with the Juvenile Institution Staff in development of criteria for evaluation and establishment of standards and practices for tracking and managing the capital facilities of the Juvenile system.
